

COMBO Labelling System (Model CSY)

The COMBO was designed and engineered to provide industry with a highly versatile labelling system, while remaining user-friendly. A highly modular design allows the single system to accurately label in a number of configurations: Front & Back, WrapAround, and 4Panel Rectangular Wrap. Any of the models are retrofittable, so the machine grows as your needs grow. The COMBO system is delivered with a host of standard features which simplify operation and set-up, and provide excellent labelling accuracy:

- Servo label applicator(s) with 150mm label web capacity
- Gimballed Bussmount - micrometer angular adjustment for labeller
- Integrated speed controls for all drive motors
- Spring loaded overhead stabilizing conveyor
- Slide mounts to service various labelling solutions

Options Available

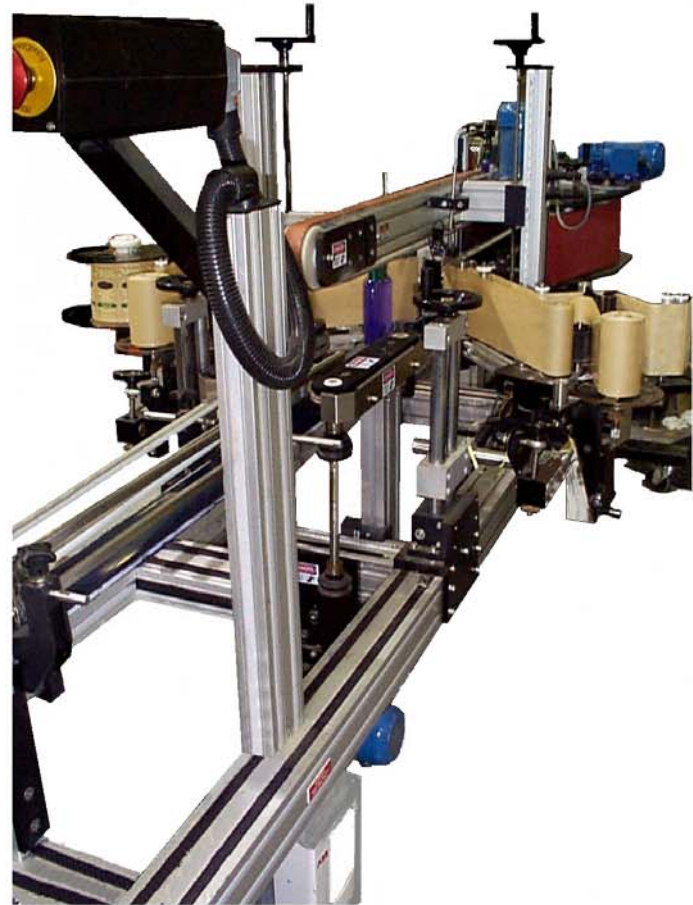

- Chain orientor
- Clear label tracer upgrade
- Collapsible rewind
- Power unwinds and rewinds
- 200mm and 250mm roller set upgrades
- Web break detectors
- Low web detectors
- Feedscrew orientor /spacer
- Air Kit option
- Wash-down upgrade
- Levelling pads upgrade
- Metering wheel

Speed: Variable, 7m/min to 30m/min, upgradeable

Accuracy: +/- 1mm at 30m/min typical

Line Voltage: 125/250 VAC, 20A, 1PH, 60Hz with neutral

Electrical Protection Rating: NEMA 4 (IP 65)
